Megan Ingram	Texas Water Development Board
Kelly Mills	Texas Commission on Environmental Quality
Jeff Taebel	Houston-Galveston Area Council
Ellie Alkhoury	Texas Department of Transportation
Tom Heidt	Port Houston
Michael Turco	Harris-Galveston Subsidence District

REGIONAL FLOOD PLAN REPORT TIMELINE

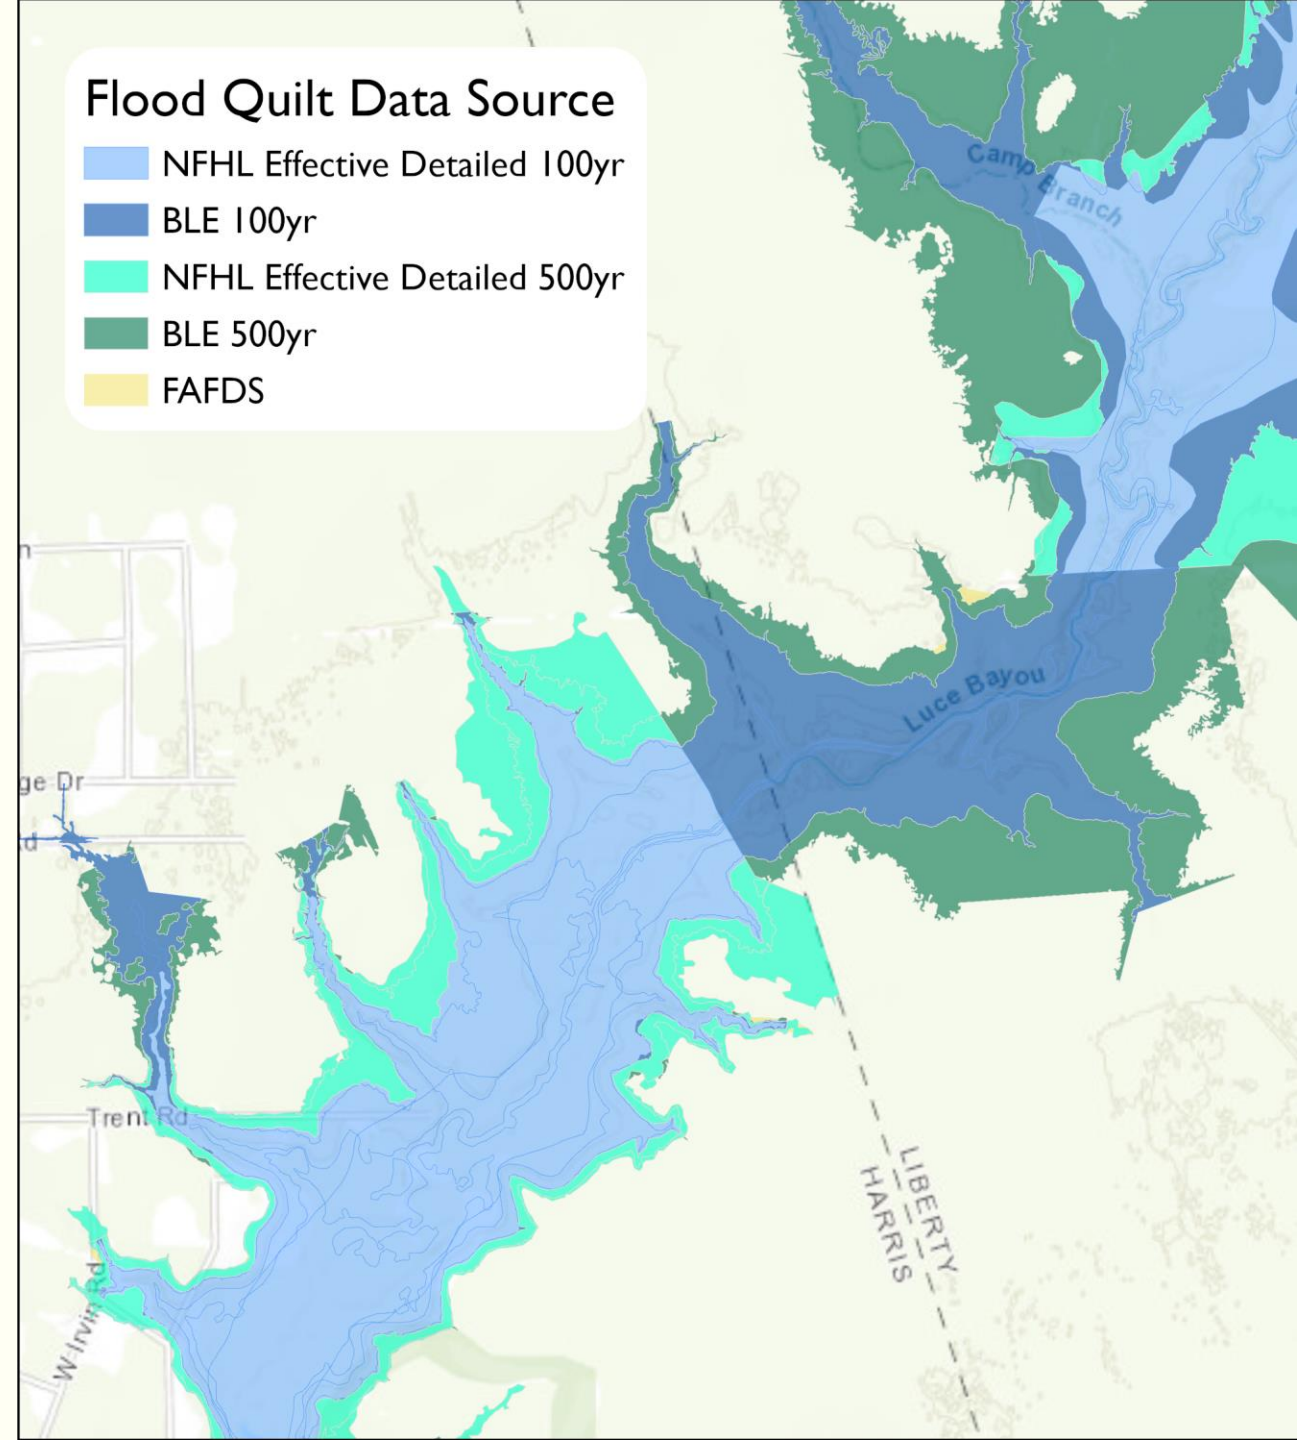

Texas Water Development Board - Regional Flood Planning Grant

The main goals for the SJRFPG are to:

- Identify flood risks,
 - Establish flood mitigation and floodplain management goals,
 - Recommend evaluations, strategies, and projects to reduce flood risks - ultimately establishing a regional flood plan.
-
- TWDB Grant is \$19.5 million in funds allocated between 15 regions
 - Region 6 - SJRFPG received \$2.4 Million

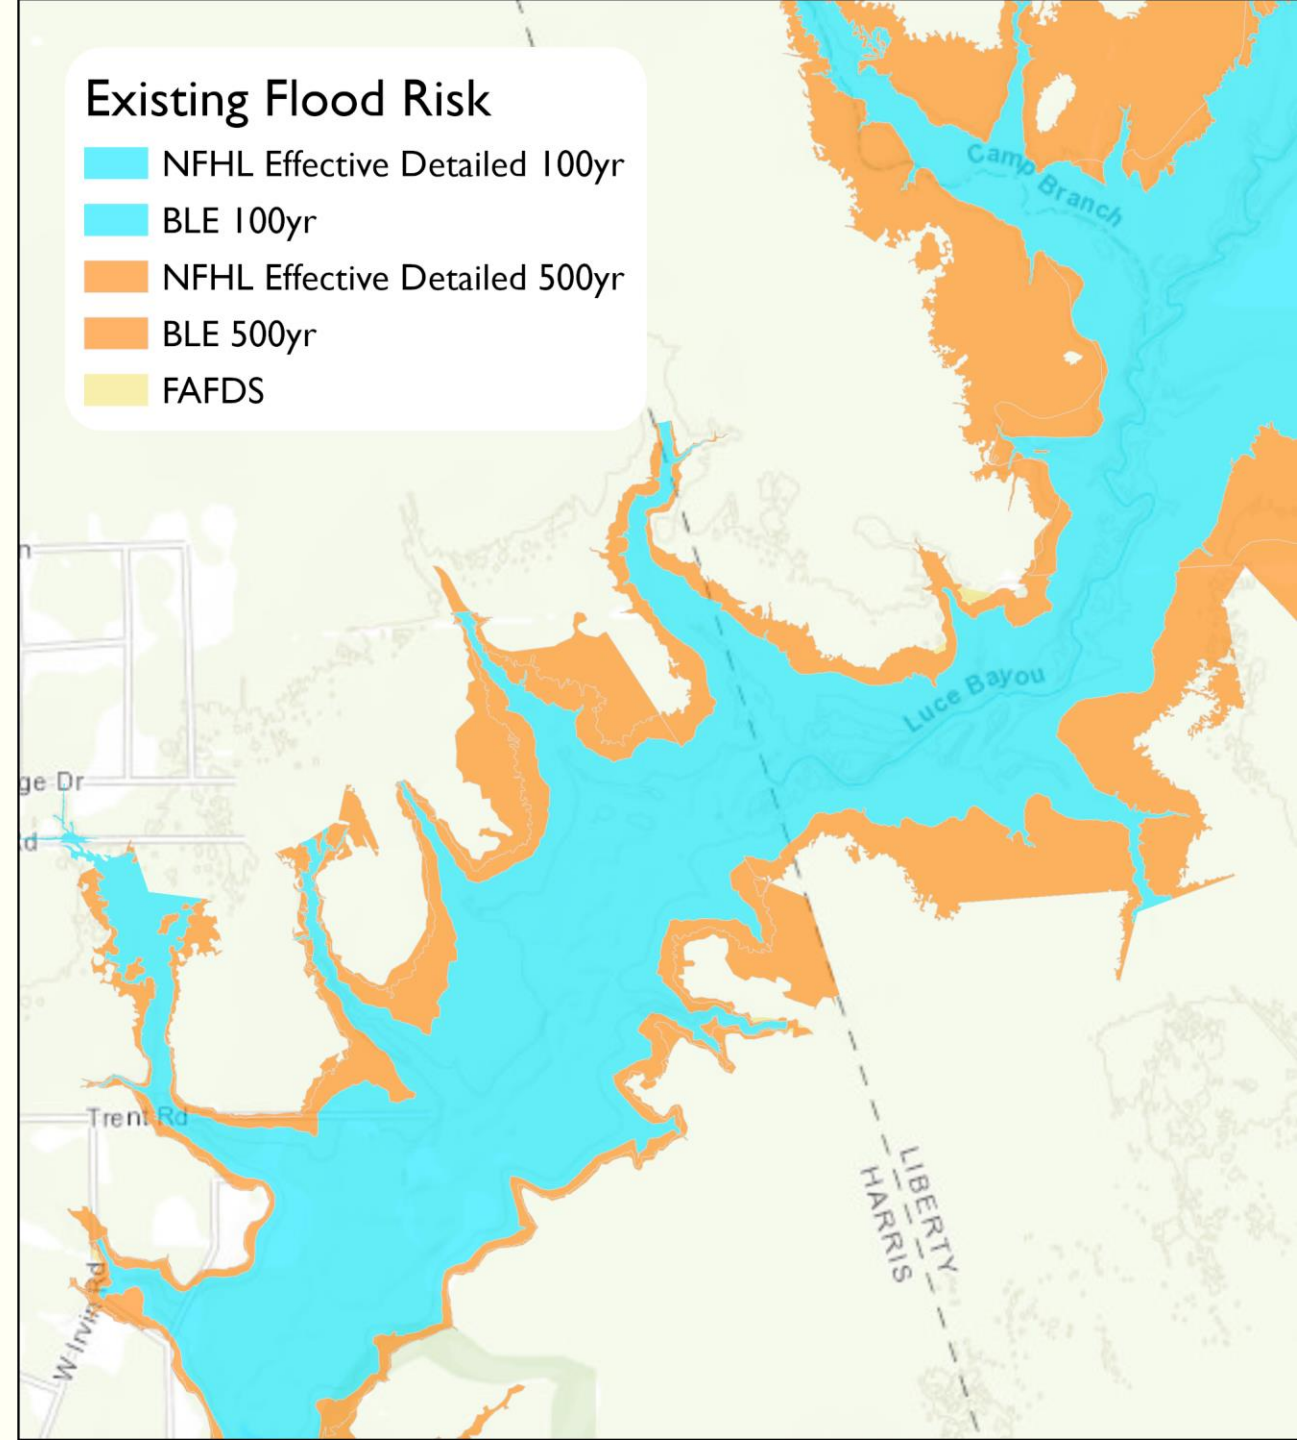

Existing Flood Risk

Compiled flood risk information from multiple sources to develop **conservative** mapping of 100-year and 500-year **riverine** and **coastal** flood risk.

Existing Flood Risk - Public Input

The objective of collecting public input on existing flood risk is to *identify flood prone areas* beyond what has been captured in mapping.

Data Collection Method - Interactive Webmap

Developed Interactive Webmap accessible through the San Jacinto Regional Flood Planning website:

SanJacintoFloodPlanning.org

At this time, we will be providing a live demonstration of how to access and use the data collection Webmap.

LIVE Demonstration

Home

Member of the Public Home

This page is intended for members of the public to provide input on the RFP process. We are looking for your help to develop the first-ever flood plan for the San Jacinto Region. Please use the links below to provide your input.

Put it on the Map

Use the interactive map as well as its photo upload and comment features to help us identify areas of flood risk in your area.

[SEE THE INTERACTIVE MAP](#)

Member of the Public Survey

This survey is an abbreviated version of a more detailed survey, intended for any member of the public to provide general input on flooding issues specific to your region.
